NUMERUS

Semi automatic machine for printing sheet and page numbering

Products	Bound products, e.g. cash and receipt books, accounting journals.
Formats	Max. 360 x 360 mm Min. 100 x 100 mm (depends on book thickness)
Thickness	up to 30 mm
Binding category	all standard binding sorts, loose sheets
Covers	hard- and soft cover
Printing	
Font size:	2 - 15 mm
Font types:	True Type Fonts
Colours:	black, colours possible
Operator	< 50 % manpower
Cycle speed	2 x 2,3 sheets per second
Output	40 to 110 products per hour (depends on the number of sheets per product)
Change-over time	5 - 15 minutes
Technical data	dimensions 3'062 x 1'326 x 2'000 mm (L x W x H) weight approx. 800 kg

The NUMERUS prints sheet or page numbering on bound products. The basic equipment includes two autonomous processing stations with one edge-counting device and printing system each.
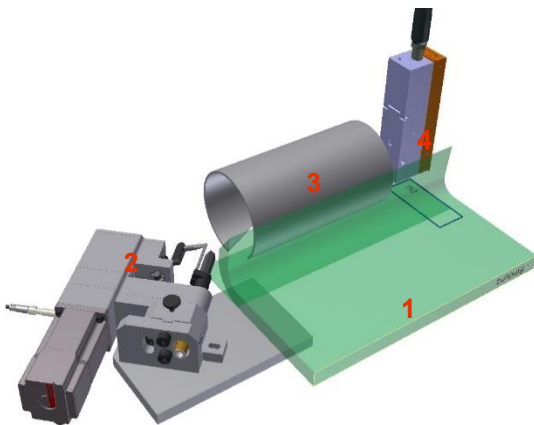

OPERATING PROCESS

Schematic diagramm of the operating process of one processing station

1. Manual feeding/delivery
2. Edge-counting device
3. Device to lift up sheets
4. Ink-Jet printing system

Feeding and delivery of the products has to be done manually. The counting and printing process is carried out fully automatically.

INTERESTING FEATURES

- Short change-over times
- 100 % counting control
- The output is independent of the operator
- Machine expandable to up to four edge-counting devices to obtain the entire product diversity at full output
- Ergonomically designed work station
- Low costs for consumables
- Unlimited program memory
- Poor noise emission because of electrical engine
- **3 years guarantee**
