

REGA 3

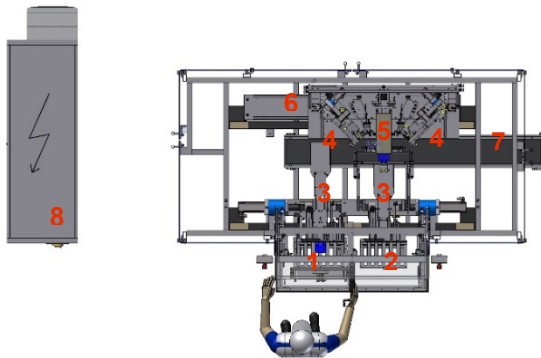

Automatic machine to cut step indexes

The REGA 3 can handle soft- and hardcover products in the format range up to 350 x 350 mm. All the usual tab shapes can be cut.

OPERATING PROCESS

The REGA 3 has two independent manually-served handling and outfeed stations which feed products to the counting and cutting unit alternately. Counting and cutting are carried out fully automatically.

- 1/2 Two handling and outfeed stations with protective shutter
3. Transfer unit
4. Parallel edge-counting unit with control system
5. Cutting unit
6. Mobile work bench for the counting and cutting unit
7. Conveyer belt for paper waste disposal
8. Electrical cabinet

The parallel edge-counting device permits automatic checking during the counting process.
