drupa

no. 1 for printing
technologies

Some machines do not yet exist. That's why Durrer develops them – from conception to commissioning and beyond.

Our highlights at the trade fair:

The **DIGI-B** is a digital edge colouring machine for industrial production. The printing of 4 sides is possible in a fully automatic process.

The **WIRO 500** was specially designed for the confection of picture wall calendars. In particular, to meet the growing demand for one-offs, individualized small quantities, and specially designed products.

SCAN ME

You will find us in hall 6 / booth A20
We are looking forward to your visit.
